

▶ Great airline  
Great staff  
We deserve a great agreement

## **While negotiations for your Agreement continue, local concerns still need to be resolved.**

**ASU members have raised the following concerns:**

- **Lack of genuine consultation;**
- **Changes to jobs without agreement;**
- **Changes to shift hours without consultation; and**
- **Reduction of potential earnings through changes not negotiated.**

The ASU has written to Virgin GCC management asking how they believe they could instigate such changes without genuine consultation. To date management have made no response other than they will get back to us soon.

These issues are of concern for many ASU members, reduction in your earning capacity, lack of access to family friendly hours, being advised you work in a different team using different skills and in some cases, no longer covered by the Agreement.

Management tell you they care but their actions show differently. The ASU will pursue these issues on behalf of members and we will seek to ensure that management understand what genuine consultation and agreement is.

If you have any concerns about these or other matters and you are not yet an ASU member, then you can join at: **[www.qld.asu.net.au](http://www.qld.asu.net.au)** or see ASU Delegates Sipola Hatcher or Belinda Weblin.
