Red Cross Blood Services UNION MEETINGS
WEDNESDAY 13 November 10:00am & 11:30am

Following the announcement on Thursday 7 November, of changes to the Manufacturing structure **Professional Scientists Australia (APESMA) and Together Qld** will be holding joint meetings in the conference room for all staff.

The meetings will precede formal consultation with Management on Thursday 14 November. The purpose is for staff to raise questions and issues they wish to have addressed about the changes and processes.

Collectively the unions have already highlighted to management that the initial career preference timeframe may not allow for time for families to consider the options and have asked the process be extended to include 2 weekends.

This meeting is open to **all staff** – please forward the invite on to your work mates.

Your Delegates.
