## Kick-Starter

*verb: kickstart, provide an impetus to start or resume (a process).*

As the name suggests this course aims to provide you with an impetus to start, resume or step-up your union organising in your workplace. Kick-Starter is a newly designed course for Together members interested in taking a more active role in their workplace and/or existing delegates wanting to refresh or boost their skills and knowledge. Topics such as unions, power, organising roles and skills are covered in this short, one-day, standalone course.
